

Encyclopaedia of Midrash (2 Vols)

The Encyclopedia of Midrash Biblical Interpretation in Formative Judaism, provides a systematic account of biblical interpretation in Judaism, from well before the second century BCE through the end of the seventh century CE. While emphasizing the Rabbinic literature, it also covers interpretation of Scripture in a number of distinct canons, ranging from the Targumic literature and Dead Sea Scrolls to the New Testament and Church Fathers. The encyclopedia comprises fifty-six essays written by thirty scholars, representing the leading figures in the study of ancient Judaism and biblical interpretation in North America, Europe, and the State of Israel. Alongside a general introduction to Rabbinic Midrash and its traits, including the theoretical questions of definition, origins, theology, hermeneutics, genre-criticism, and language, the encyclopedia addresses specific topics of concern in the study of scriptural interpretation. How Rabbinic midrashic documents that focus on specific books of Scripture read those specific books, the theology expressed by Rabbinic midrashic compilations, and the historical context in which Rabbinic Midrash took shape all are treated. Beyond these central issues in understanding Rabbinic Midrash, the encyclopedia treats interpretations of Scripture that came to closure prior to, or outside of, the framework of Rabbinic Midrash: Hellenistic Jewish Midrash, Josephus, Pseudo-Philo, Jubilees, as well as to the New Testament, Karaite and Samaritan writings, and the Dead Sea Scrolls. The Encyclopedia of Midrash provides readers with a depth and breadth of treatment of Midrash unavailable in any other single source. Through the writings of top scholars in each of their fields, it sets out the current state of the question for each of the many topics discussed in its pages.
