

A History Of Wood-engraving

This is a reproduction of a book published before 1923. This book may have occasional imperfections

such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact,

or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections,

we have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

Early woodcuts were cut on the side grain of woodblocks with knives or gouges and, with some notable exceptions, Wood engraving is a printmaking and letterpress printing technique, in which an artist works an image or matrix of images into a block of wood. First, rather

than using woodcarving tools such as knives, Bewick used an engravers burin (graver). **A HISTORY OF WOOD-ENGRAVING Douglas Percy Bliss** Project Gutenbergs A History of Wood-Engraving, by George Edward Woodberry This eBook is for the use of anyone anywhere at no cost and with almost no **Wood engraving - Wikipedia**
