

## Tales of New Atlas: the Ragnar Ulrichson Saga

New Atlas is a city in a world both strange and familiar: a place of towering skyscrapers, grimy streets, gun-toting mobsters and knockout dames, but also one of savage orcs, haughty elves, cunning dwarves and, in the midst of it all, a private detective-cum-barbarian hero just trying to do the right thing. Here, collected in one publication for the first time, are the first three novellas featuring the tough but fundamentally decent New Atlas gumshoe Ragnar Ulrichson. Battling a drink problem and an old injury along with clients who don't even share his biology, and enemies who think of him as just another pawn in their Ages-long games of world domination, he's got the whole filthy city against him. Or so he believes. An affectionate homage to both classic fantasy and hard-boiled detective fiction, Tales of New Atlas features three adventures in a crime-ridden near-modern metropolis with a twist. From the murder-mystery of *Written in Blood* to the apocalyptic spectacle of *Dragonfire* and the last, desperate fight for the streets in *Darkness Rising*, a cast of memorable characters and settings blend the everyday with the fantastic and come together in an epic saga that is JRR Tolkien meets Raymond Chandler.
