

## Tamed

Werewolves are real. And they make excellent pets. Owning one of the legendary creatures is the latest fad. The WereHouse insists their werepets are loyal, docile, and 100% safe, but what happens when these gentle giants turn on their masters? While on a routine EMS call, paramedic Christine Alt is attacked by a rogue werepet. She escapes with her life, but the encounter leaves her with more than just scars. As her body begins to change, she discovers the WereHouse is hiding a terrible secret, and they will stop at nothing to keep her from exposing them.

Tamed is a werewolf tale with a twist from the author of the The Light of Eperthese trilogy.
