

Serenity challenging the Fear of Aids from Despair to Hope

Confronting the fear of AIDS is upsetting and difficult. But anyone who is struggling to find peace of mind in the midst of the AIDS epidemic must first learn to confront that fear. In these 8 essays, Paul Reed discusses the typical bouts of tension, anger, and hopelessness- and offers insight about changing these feelings and achieving serenity through new habits, new attitudes, and healthy living. An inspirational guide to finding emotional strength during these physically challenging times.
