Clock Jumpers part 1 - 2 - 3 make up the series. In part one Katia, a virtual time traveler, meets Detective Annen Scott. He becomes aware that she is from the 23rd century and is here studying the 21st. She and her group find an alien race that is working with the world governments to provide new technology but in reality are planning to exterminate the human race. While investigating the murder of a priest who is found nailed to a cross, Annens case merges with Katias cause. They are thrown into a world turned upside down. Part two finds Annen and Katia meeting another time jumper, Chi, who knows about the plot and helps them in their quest to thwart the alien plan. Annen begins to investigate his fathers murder and finds some things he didnt know of. Part three involves J. Lynn Croff of the China Affair and Detective Brad King who are thrown into the mix and risk their lives to assist the Clock Jumpers.
