

The Iron Breed (People Saga Book 1)

Two best-selling novels of science fiction adventure from the People saga of legendary storyteller Andre Norton together for the first time. Iron Cage: Johnny has always loved and been protected by the People, the bearlike inhabitants on the planet he calls home. But when a star ship arrives carrying Johnnys original species, humans who seek to exploit the People for their own ends Johnny is forced to choose between loyalty to the creatures he considers his family, and the need to reconnect with his long lost heritage. Breed to Come: On a distant future Earth, humans have polluted the planet and departed, leaving their pets behind to inherit a blasted world. But from that devastated past, a new breed of intelligence arises: the catlike People. Now humans return and the People are in no mood to deal once again with the demons who abandoned them to fate so long ago.
