

The Children of Caelum: Evangeline Part I (Volume 1)

What if you woke up with no real memory of who you were? Everything you thought you knew about yourself was nothing but a lie to hide the earth shattering truth. Once you find out the truth, you realize it was only covering up more lies, sprinkled with betrayal and doused with chaos and love. Meet Evangeline, a woman who has lived the last 10 years with no knowledge of who she really is. Searching for answers she only finds more questions and half-truths. When she sleeps, she dreams of worlds beyond our borders and of a man whose face she can never see. When she wakes up, the memory of it escapes her, leaving a gaping hole in her heart. It isn't until she meets the man from her haunting dreams that she is able to understand and remember it all. Find yourself involved in the greatest love triangle as she finds a way to choose between the love of Archangel Michael and his younger brother Gabriel. Dive into a world where reality is only masking the truth and love is stronger than magic. Where chaos is the order in which the layers of this world are laid and knowing who you are is only half the battle. Fight along with our heroes as they are thrown into a war where the lines between good and evil are blurred and the villains must find a way to save their own humanity.
