

Pleasure Gardens of the Mind: Indian Paintings from the Jane Greenough Green Collection

Indian paintings are often of worlds constructed rather than depicted realistically. Divided thematically into various subjects, the paintings in this book provide glimpses into some of the many worlds painted by Rajput and Mughal artists from the 16th to 19th centuries. The 61 paintings inside show how the artists delighted in various settings, from verdant nature, courtyard gardens and lush forests after a monsoon.
