

The power of your words: Your mouth can attract happiness or misfortune to you

Most of people in the world speak from sunrise to sunset without any idea of the power they release for useful or useless purposes. Death and life are in the power of the tongue, says the Bible (Proverbs 18:21). Words are the power that God shares with men and women for useful purposes. The words that humanize and give rhythm to mans life on earth are a double-edged sword. This book is a tool to motivate all those who speak on a daily basis to be aware of this power the Creator has put in them during creation. The life of every citizen of the world is shaped by solemn declarations and ordinary words launched during his or her existence. Human words are sown seeds which will germinate without fail to bear fruits for or against the author or their recipients. Men and women can choose to take advantage of the power of words or suffer their negative consequences. Each of us has at least made a positive or negative experience with the power of his or her words. This book answers questions surrounding the mysteries of human words.
