

# Classical Favourites For Piano Book 1: Easy Classical Sheet Music Arranged For Piano

Classical Favourites For Piano Book 1 This is the first of two classical sheet music books I have arranged for piano. The skill level required for this book is grade 1 to grade 2 level, so they are relatively easy to play, however, a new beginner should be assisted by a piano teacher. The more advanced players can try book 2 in this series which will test your playing up to grade 3 level. All the pieces in this book are nowhere near concert pianist level so in that respect can be considered easy to play. Classical music by its very nature can be considered difficult to play and indeed, original manuscripts from Beethoven, Mozart, Bach and many other classical music composers are very challenging to play. With that in mind, I have arranged the pieces in this book to appeal to the thousands of classical music fans that want easier versions of their favourite classical pieces. You won't find full on symphonies with pages and pages to play in this book, many of the pieces in this book are two, three and four pages at most and while the music in this book is arranged for piano, I have also included chord symbols for those that don't want to or can't read bass clef, so electronic keyboard and organ players can also enjoy playing these pieces.

Contents: Fur Elise My Heart At Thy Sweet Voice La Donna E Mobile (From Rigoletto) Ode To Joy Valse Lente Liebestraum Roses From The South Waves Of The Danube Radetzky March Minuet In G Major Piano Teachers

Although the pieces in this book are greatly simplified compared to the original manuscripts, there is still plenty to learn and I can highly recommend these books for piano teachers. As a former piano and keyboard teacher myself I understand the importance of choosing the right music and in the right format to aid not only the teacher but the students success in playing in a comfortable and enjoyable way, hopefully for the rest of

their lives. Adult Hobbyist If you are not a professional musician but like playing the piano purely for your enjoyment, then its probably your hobby and as long as you have an understanding of written music, you will enjoy this book especially if you like classical music. If you are a beginner that wants to play the piano as a hobby, you can still enjoy playing the music in this book as long as you have the assistance of a piano teacher, even if its only for a few months, you wont regret it and it will open a new world for you. My name is Michael Shaw, I hope you find this book useful, Good luck with your music.
