You are not required, nor does the universe want you to live a life that meets the expectations of others. You have the right to learn the biggest obstacles to becoming wealthy. And the simplest steps to make money. You have the right to know why lack of money is never the

problem. And how to identify what is really holding you back from pursuing the life of your dreams. You have the right to create a life that will be a shining example to everyone around you. Your life can be an inspiration to the world. You have the right to DREAM BIG and ignore negative people. If you can dream it, you can live it, and anyone who tells you different is just plain wrong. Inspired by Napoleon Hill's classic *Think and Grow Rich*, which I read once a year, I decided to seek out some of the best real success stories I could find who were using these principles and the Internet to empower themselves and others. The result was *Click & Grow Rich Online: 13 Proven Success Principles to Make Money Online Now*, a compilation of 14 books. In each book you will learn the truth behind one of the thirteen principles, why they work, and how everyday people just like you leveraged them in combination with powerful Internet marketing tools to create astounding successes sometimes very quickly. Through my interviews in each book, you'll discover how these Success Mentors were all able to transform adversity to triumph. Not only are they all creating more abundance in their lives, they are also living a life of purpose and fulfillment which is a greater blessing still. When they combined the universal principles of success with the revolutionary resources of easy online marketing tools, it becomes almost like having the Midas touch. *Click & Grow Rich Online, Principle Two: Faith*, you will learn the importance of a faith that begins with positive self-worth. You will also see how Frank Kern, a surfer-dude who wrote the vision of what his ideal life would be, did whatever it took and now makes millions with a few clicks. Buy it now!
