

## Dark Ages Book One: Vendetta

History has repeated itself and the Dark Ages of man are upon us once again. Several hundred years after the end of the world's second ice-age and the near extinction of the human race, mankind is in a state of rebuilding. The technology that we once took for granted, and believed would usher us into the future, has become nothing more than a myth to a species that is once again on the brink of destruction. War looms on the horizon, a war that has been going on since the dawn of creation. Now it would seem that the final pieces of a dark, menacing plan have been put into play, and mankind's darkest hour is at hand. But all this is irrelevant to one woman. Luna Ayala-Kin, Infantry General of the once prominent Tereye army, has embarked on a murderous quest for revenge after having everything that she once cherished violently stripped away. The loss of her young child has driven her to the point of utter madness, and she has vowed to stop at nothing until her blade is coated in the blood of the one that took her daughter's life. Her three-year journey has left nothing but devastation in her wake, and still she has not found the answers that she seeks, answers that could lead her to the kingdom of Golgotha, and her quest ends. With hope and sanity rapidly dwindling, at her most vulnerable state, a dark and magical being from her past has offered her the key to her success, at a price that may be too steep. The temptation will change everything. Will Luna be prepared to sell her soul for revenge, or will she continue on her bloodthirsty path of destruction alone, blind, and in the dark.
