

A Rumor of Gems (Gemstone)

Enter the port city of Arcato: an old and magical town set somewhere in our modern world, a town where gemstones have begun to mysteriously appear . . . gemstones whose mystical powers aren't mere myth or legend but frighteningly real, casting their spells for good and ill. And the gemstones aren't all that's awry: gods and tricksters have also been loosed, sewing chaos in the streets of Arcato. Caught in this maelstrom of magic and chance are four people whose lives become inextricably intertwined: Lucinda de Francesco, an embittered young woman who has no interest in falling under the influence of gods, gems, or any man; Alasdair, a shaman of sorts who can read and invoke the power of the stones; Sebastian Keane, an antiques dealer who pursues Lucinda with charm and persistence and other mysterious means; and Micheal Fortunato, an 11-year-old boy who--under the influence of gods and gems--may have become a killer. *A Rumor of Gems* is a suspenseful, sexy story about the myths that linger in the shadows of our world. If you've ever been seduced by the beauty and power of gemstones, come find the magic at their heart.
