

# WATERSHED - A Community Cares for Its Land EXHIBIT CATALOG

Art book and visual record of WATERSHED. Over 100 images of western New York wetlands illuminate the account of this breakthrough project. These places form a transitional bridge between waterway and land. I am like them -- melding boundaries, filtering all, mediating the deluge, in flux, ignored. We have a bond, wetlands and me. They share their atmosphere with me, and I honor this bond by sharing their allure through images.
