

Fearful Cities

Aislinn Celthric never wanted to rule her fathers kingdom, but after he goes missing in Japan, she is forced to take over. All seems well until a routine patrol turns into a deadly fight, officially declaring war against the demons of Earth. With the help of her friends and a mysterious new fairy named Dest Aislinn must prepare her people for a battle that could destroy everything theyve ever known. With her personal life hanging by a thread and demons raging just outside the island borders, Aislinn must give up her past and become the person she was meant to be. Love, betrayal, and loss ~ it all comes down to one final moment when she must choose. Nothing is safe when the fate of an entire realm rests on the decisions of one.
