

Invisible Touch

Kara Martinez has been trying to be normal ever since the accident that took her fathers life when she was eleven years old. Shes buried the caliente side of her Mexican heritage with her father and tried to be the girl her rigid mother wants her to be -- compliant and dressed in pink, and certainly not acting out like her older brother Jason. Not even Danielle, her best friend at Valdez High, has seen the real Kara; only those who read her anonymous blog know the deepest secrets of the Sign Seer. Because Kara has a gift -- one that often feels like a curse. She sees signs, visions that are clues to a persons fate, if she can put together the pieces of the puzzle in time. So far, shes been able to solve the clues and avert disaster for those shes been warned about -- until she sees the flash of a gun on a fellow classmate, and the stakes are raised higher than ever before. Kara does her best to follow the signs, but its her heart that wanders into new territory when she falls for a mysterious guy from the wrong side of town, taking her closer to answers she may not be able to handle. Will her forbidden romance help her solve the deadly puzzle before its too late...or lead her even further into danger?
