

The Geomides Affair

A year has passed since the end of apocalyptic war. Famine and desolation, the only remains of civil society. The survivors on Geomides piece together new lives as their precarious world spirals into chaos, violence, and intrigue. Leaving them to face their most dangerous enemy: themselves. This work is a science fiction tragedy in the strictest sense of the word, that bad things happen to bad people, and its their own fault. Its a dark satire of grief that gives no answers. You have been warned.
