

Lake George (NY) (Images of America)

Pioneer photographers Seneca Ray Stoddard and Jesse Sumner Wooley, along with other local professional and amateur photographers, visually recorded life at Lake George around the beginning of the twentieth century. With artistic clarity and astuteness, they created a pictorial diary of this well-known resort area, as our grandparents and great-grandparents would have known it. Many of the nearly two hundred images in Lake George have rarely been seen before and serve as more than a road map through the areas past. They capture life at natural moments. The clothing, the modes of transportation, and the recreation that were once quite common appear in page after page of breathtaking photographs and brilliant narrative. This pictorial history explores the bays and byways of the lake, its year-round residents, and the vacationers who made it their temporary home every summer. Replete with images of moments, hideaways, and people that no longer exist, Lake George is a new experience in an old familiar place.
