

Land of Nameless Gods: Outer Layer

Once I was Inspector Shilig-El I was once a Maskim, a spirit of the underworld entrusted with the task of investigating crimes against death. For sixty six centuries I have protected the dead. That all changed when a Necromancer escaped from the Pit, where we keep the worst criminals, into the land of the living. Tabira-El, my sister, had been his jailor that day and has not been seen in any realm of existence since. Now the great god Enki of the realm of water is sending me to Washington DC in the Land of Nameless Gods, what you might call the mortal realm. I am to be a private investigator by the name of Sean Graves. I will enlist local aid, both mortal and ethereal, in my hunt to recapture the Necromancer and to rescue my sister. The Necromancer had lived, that is he had existed, among the living for centuries and we could not track him. As demons there were limitations to our power. The Necromancer had made a mistake though. He had allowed himself to be caught in the middle of a mortal crime. Gunrunners had robbed the store that he was in and he had been struck dead. As Sean Graves I could go where demons could not go. I could work my way into the investigation. I could see and think as mortals could. There was one drawback though. Mortals can die.
