

# Clumber Spaniel: How to Own, Train and Care for Your Clumber Spaniel

Highly regarded as one of the nine original breeds recorded by the American Kennel Club; the Clumber Spaniel's low and long build is definitely distinctive among the spaniels. Even though this type of dog is not as fast as other sporting dogs, it has the capability to work all through the day. This breed may seem contemplative and dignified; however it has great love for both play and work. In the same way, it possesses lovely white coat and may also come with orange or lemon-colored markings. Characterized as affectionate and playful, the Clumber Spaniel perfectly suits with families and other pets. They love daily walks; however, they are recommendable as a jogging partner. This breed constantly sheds heavily all year round and is more likely to drool or salivate as compared to other breeds. It is also known to be an independent thinker and is described as the bright type of dog. This dog responds well to positive training.
