

Card Art

Card Art offers a host of original ideas for helping you create your own greeting cards. It gives ideas, starting points and encouragement and aims to stimulate your imagination, creativity and originality. Here are ideas for a whole range of card occasions, in a variety of easy-to-manage techniques; but many are interchangeable. Be adventurous, experiment, and the results will be unique. The book is arranged in sections, each based on a different technique, such as collage, coloring, cut and fold, printing and mixed media. The cards in each section are graded from easy to more difficult, so that everyone, from the maladroit to the nimble-fingered, from children to adults, will find cards they can tackle successfully.

You can follow the user-friendly instructions to the letter, or branch out and use the ideas merely as stepping stones to your own original creations. With the help of Card Art, you will produce professional looking cards, at minimum cost, but with that individual sparkle that is missing from mass produced greeting cards.
