

## Louise Bourgeois: Maman

Maman, the largest of Louise Bourgeois spiders was exhibited at the Wanas Foundation, Knislinge, Sweden, for the period of one year beginning in November 2006. It was located in the park surrounding the main building where the spider seemed perfectly at home. This far-ranging and engaging publication celebrates both the spider and its creator, through full page photographs, smaller images and reproductions along with a number of critical essays by art critics and historians.
