

Nassau Senior and Classical Economics

one of the best contributions to the history of economic thought during recent years P. M. Rosenstein-Rodan Nassau Senior is one of the most significant economists in the classical tradition. This study is based both on his unpublished and published lectures and writings. Part 1 illustrates Seniors outstanding contribution in synthesizing the various developments of Adam Smiths theories that took place during the first part of the nineteenth century. Part 2 examines Seniors opinions and influence on social and economic policy, in particular his connection with the passing of the Poor Law Amendment Act of 1834.
