

Pureheart

When Maggie Adams was fourteen years old, four of her friends drew a pentagram on the floor, lit candles made of human fat, repeated the words of an ancient spell, and raised a demon. They had no way of knowing that what they did that night could bring about the end of the world. They did not know that a supernatural force beyond their comprehension or control had waited patiently for this very moment in time. And no one had any way of knowing that a little dog, sent from God, was the only living thing that stood between them and total annihilation.
