

Storm Generation: diaries of Anonymous Boh

By obtaining its reputation as an alternative, Boh, has swooped onto the global art landscape without looking back. Performances, art tours organized in tens of cities across Europe, Asia and America have turned the notoriously alternative Non Graters into a creative collective who are much better known elsewhere than in Estonia. Their experience is not a subject much talked about, although artistic activity transcending boundaries of art and countries is today's artists' most desirable self-realization.
