

RBS Reserve Management Trends 2013

Now in its ninth year, the only annual survey of central bank reserve managers provides candid insights into the thinking of official sector portfolio managers. RBS Reserve Management Trends 2013 features an exclusive report of a survey of 60 central banks, responsible for more than \$6.7 trillion in reserve assets, on their reaction to the global financial situation and how they view the key questions facing financial markets and the international monetary system. The book, published on April 8 2013, features chapters which cover topics including: - The scarcity of global safe assets - A framework for managing credit risk - Strategic asset allocation: MBS at the Bank of Latvia, 2008 to date - Reserve adequacy in an asset-liability framework
