

When War Walks (The Hurricane Journals Book 2)

The Witches of Saint Claude have been shattered by a terrible flood. Their newly discovered home was left in ruin, with drowned corpses still being pulled from the swamp, and that was exactly the moment which the brood of Saint Bernard had chosen to strike. With their self-proclaimed king already carrying his own selfish weight upon his shoulders, the brood of Saint Claude must somehow find a way to rise up against their mightiest of adversaries, and not only the Elders of Saint Bernard - but adversaries that can only be found by looking inward. So as the bloodline of Tytanicus once again attempts to sway the fates of the future - by turning the Vampire Storm into a weapon - a Warlock will take his full form upon the battlefield. But power is often times not so easily taken, and one shift can merely lead to another. This is the story of Witchkinds first supernatural battle upon their newly discovered soil, and the fallout thereafter. This is the day that war first walked upon this rivers crescent, and changed it forever more.
