

# Environmental Careers, Environmental Employment and Environmental Training: International Approaches and Contexts (Betriebswirtschaftliche Studien Rechnungs- Und Finanzwesen)

This book presents an overview of experiences, projects and approaches related to employment in the environment sector and of trends related to sustainability. It also contains an article on career prospects for women in the field of engineering, of which environmental engineering is an important component. This publication, prepared as part of the project > funded by the EUs Leonardo Programme, documents a variety of experiences on environmental training useful to those involved with curriculum development, curriculum planning and other aspects of environmental education.
