

Guitar Meditations: Contemplative Solos for Plectrum Guitar

Influenced by a wide range of musical styles, these concert pieces are meant to be played with a pick, although they certainly can be performed by a fingerstyle guitarist. The intent is not to showcase sparkling technique, instead they were composed to convey a palate of musical colors and moods. They offer the guitarist a wonderful opportunity for expression. Many are impressionistic in character. Some are musical reflections of thoughts, moods and emotions. Some were scored for a 7-string guitar, with the 7th string either tuned to low A or low B. However, all may be successfully performed on a 6-string guitar. Written in notation and tablature. Free audio downloads are available for use with this title.
