

When The Tear Wont Fall

With the issue of fatherlessness plaguing the development of today's children, service providers are seeking new and innovative techniques in providing family service. Twenty-four million children wake up each morning without the security of having a responsible biological father in their homes. As a result, an increasing number of grass-roots organizations have taken on the task of addressing this concern. In addition to services, focus on fatherlessness is being addressed on the national stage by presidential candidates and social commentators. The television and film industries address this family dynamic in sitcoms, reality shows and movies. Conferences, town hall meetings, forums and other modes of expression have also emerged. However, none are more prevalent than the scores of books recently written by researchers, celebrities and everyday people. Most books are written from a celebrity, researcher or policy perspective. This topic has quickly risen as the hottest family issue of this era. When *The Tear Wont Fall*, speaks from a man who has struggled with his own issues and now uses what he's learned to encourage others, through his life, to focus on the things that matter in life; children. The book is an attempt at addressing the issue of fatherhood from this fresh perspective. As an African American male growing up in a single family household, Mr. Braswell struggled like many boys in Brooklyn, New York to manage the development of his rites of passage into manhood. Against the odds of stereotypes, statistics and challenges, he negotiated his path into the work of Responsible Fatherhood. Today, after over 20 years of community service, publishing and broadcasting, he finds himself as a leader in the nation's Responsible Fatherhood Movement.. This passionate story, which begins in Brooklyn, follows Mr. Braswell's journey around the world and finally to Albany,

New York, where he is a father, grandfather, stepfather, and godfather. Mr. Braswell shares his life, loves, failures, challenges, triumphs, heartaches, experiences, philosophies and insights in this 258 page journey through the intimate struggles of manhood and fatherhood. For interviews, excerpts, and other information contact Mr. Braswell at by email at kenneth.braswell@gmail.com.
