

Succeeding at the Piano Theory and Activity Book Level 2A

This book reinforces the concepts taught in the Lesson and Technique Book Grade 2A with creative and diverse activities such as writing, playing, ear training, and special Time to Compose. Reading is reinforced by traditional as well as intervallic reading exercises, and students continue to develop their musicianship by transposing, ear training, playing by ear, and rhythm activities that teach students how to internalize rhythm. These activities engage and motivate students with supportive, pedagogically sound material that promote further development of a well-rounded musician!
