

Handbook of Public Finance

The Handbook of Public Finance provides a definitive source, reference, and text for the field of public finance. In 18 chapters it surveys the state of the art - the tradition and breadth of the field but also its current status and recent developments. The Handbook's intellectual foundation and orientation is truly multidisciplinary. Throughout its examination of the standard material of public finance, it explores the connections between that material and such neighboring fields as political science, sociology, law, and public administration. The editors and contributors to the Handbook are distinguished scholars who write clearly and accessibly about the political economy of government budgets and their policy implications. To address the needs and interests of international scholars, they place European issues next to the American agenda and give attention to the issues of transformation in Central Eastern Europe and elsewhere. General Editors: Jürgen G. Backhaus, University of Erfurt; Richard E. Wagner, George Mason University. Contributors: Andy H. Barnett, Charles B. Blankart, Thomas E. Borcherding, Rainald Borck, Geoffrey Brennan, Giuseppe Eusepi, J. Stephen Ferris, Fred E. Folvary, Andrea Garzoni, Heinz Grossekkettler, Walter Hettich, Scott Hinds, Randall G.
