

# The Life and Ideas of James Hillman: Volume I: The Making of a Psychologist: 1

Considered to be the world's foremost post-Jungian thinker, James Hillman is known as the founder of archetypal psychology and the author of more than twenty books, including the bestselling title *The Soul's Code*. In *The Making of a Psychologist*, we follow Hillman from his youth in the heyday of Atlantic City, through post-war Paris and Dublin, travels in Africa and Kashmir, and onward to Zurich and the Jung Institute, which appointed him its first director of studies in 1960. This first of a two-volume authorized biography is the result of hundreds of hours of interviews with Hillman and others over a seven-year period. Discover how Hillman's unique psychology was forged through his life experiences and found its basis in the imagination, aesthetics, a return to the Greek pantheon, and the importance of soul-making, and gain a better understanding of the mind of one of the most brilliant psychologists of the twentieth century.
