

The Orb

Tristan Fletcher is a normal 15 year old boy until he gets drawn into a dare by a school trouble maker. He breaks into a house and finds his life turned upside down when he becomes the next in line in a succession of warriors that have battled demons over thousands of years. He develops powers that both render him more than human but ultimately drive him from his home and loved ones. Will he be able to defeat the evil forces ranged against him and will he ever be able to return home?
