

SPIRITUAL JOURNEY

Life is a Miracle. Flawed understanding of its inscrutability is because we lack the Technique to understand. Implement it. Suddenly you are in the here and now. That is Truth. Be in the present - in the silence of here and now. This is real freedom - nirvana. Meditation is neither philosophical nor intellectual. It is existential. It must be thought through. It must be lived through. Consequential transformation allows the old to die. A new vision of insight is born with out old lust, wants, anger greed, selfishness pride and aggression.
