

Tridents Forge

Theyve made it this far. If only that increased humanitys chances on this new planet Against all odds, the Ark and her thirty-thousand survivors have reached Tau Ceti G to begin the long, arduous task of rebuilding human civilization. Meanwhile, on the other side of the world, Tau Ceti Gs natives, the Gtel, are coming to grips with the sudden appearance of what many believe are their long-lost Gods. But first contact between humans and gtel goes catastrophically wrong, visiting death on both sides. Rumors swirl that the massacre was no accident. The Arks greatest hero, Bryan Benson, takes on the mystery. Partnered with native truth-digger Kexx, against both of their better judgment, Benson is thrust into the heart of an alien culture with no idea how to tell who wants to worship him from who wants him dead. Together, Benson and Kexx will have to find enough common ground and trust to uncover a plot that threatens to plunge both of their peoples into an apocalyptic war that neither side can afford to fight.
