

## Triton: the Aegean Chronicles (Volume 1)

What happens when your ancestor, who happens to be a pedophile, a rapist and a cold blooded killer tries to kill you? Even stuffs his daughter and grandson into a box and throws them into the sea? Luckily for Ariadne Phillips, Triton, god of the sea, travels across the ocean to protect her. Reluctantly, you might add. Sent by his father to watch over a silly mortal, Taz plans to ship her off to No Mans Land, then go back home to max and relax. When green eyes meet hazel, its a done deal. Taz wants to keep the only mortal who can make him laugh and cry at the same time. Ari gets a dream trip to Greece, model beautiful clothes, and finally use her self-defense training to kick some butt. Happily ever after cant be reached without Taz discovering his mortal flaw. Gods can...and do...die. Ari cant join the immortal ranks without first, fighting the crockety Fates... for her very soul. \*PS\* A heads up; this is an adult book for grown folks. Just because were older, doesnt mean we dont like to have fun. Meant for 18+ Enter at your own risk.
