

## Creatures of the Faith (Khataria Book 1)

Each generation, by design of The Faith, three princes are bred to rule the future empire, one mortal and two Seers to guide his reign. In the midst of a twenty year war, the new trinity is born with Karelia at its head, and his consuls Danos and Zanaes at his side. Their lives seem much like all who have passed before them, but as manhood nears, factors beyond their control are destined to tear their trinity apart. With the risk of invasion ever-present, Danos has visions of the past that push him towards insanity, while Zanaes uncovers a conspiracy of silence over his predecessors death. Meanwhile, Karelia learns that his reign was foreseen 700 years ago by the rebel prophet Jai, but the prophecies are unclear and hang like a sword above his head. Karelias only comfort is Danos, in whom he finds true love, a love they both know that Crown and Faith will not allow. With Karelias world in turmoil the Faith intervenes and takes his consuls away, sending them to war at opposite ends of the empire.
