

Intergalactic Justice Council

On March 23, 2289 a cataclysmic event destroyed Earth's solar system leaving behind a black hole. Scientists, foreseeing the inevitable years earlier, set in motion a plan of mass migration to a planet in a nearby galaxy. Sadly, due to unforeseen circumstances, only mere millions successfully made the move to what is now called New Earth. Katakans, the proper name for humans, quickly realized that they are not alone in the Universe. Some they find to be friend and others foe. With the introduction of advanced technology, Katakans are able to travel to all quadrants of the known Universe. However, they are not always greeted with open arms; their exploration is seen as an intrusion and an affront to offended alien cultures. It isn't long before these species attempt to eradicate this pesky annoyance. Fearing annihilation, the people of New Earth joined forces with their neighbors the Markari and the Tet-wan, a move that strengthens their position in the Universe. The formation of the Triune Alliance quells the abuse for a short time, though; an incident involving a Tet-wan freighter captain nearly sparks an interstellar war. The Markari and the Katakans urged the Tet-wan to seek other means of settling the incident. Instead of going war, the Intergalactic Justice Council is created. The IJC is designed to protect member species from injustice; sixty percent of the Universe's known species are members of the IJC organization. Chapter One begins with the existence of the IJC being threatened by a serious accusation made against the Chancellor General of the IJC High Court, Sir Dominan Curvase. Dominan, a Tet-wan, is accused of murdering 50 million Tgaman by way of a High Court verdict. It is up to Royce Morgan, the newly appointed Chief Advocate, to not only defend the Chancellor General, but to also get to the truth behind the allegations. Chief Morgan

has enlisted the help of five of his subordinates. Unfortunately for the IJC crew, a conspiracy is in the works to keep them from finding the truth and securing the solidity of the Council. The investigation stretches far and wide taking the group to the opposite end of the Universe to fulfill the Tgaman Grand Prophecy. One member of the group is kidnapped and exposed to a life-threatening situation where one life is lost. As if Royce doesn't have enough going on right now, his estranged cousin, Big Dave Johnson, space pirate by trade, is arrested for murder.
