

Wolves Run: Run to the Sea

Book Three in the Wolves Run Series. It is going on three years since Ellie and her wolves came to Wolves Run. Mutual sharing has become the essence of their lives. Did I tell you that her wolves speak? They speak in English. That is how they convinced her to take them always from sick woods. This sixty something heroine still runs with her wolves. There is a quality of refusing to grow up in her new life. Why should she? Conflicts, personal grief, never persuade her to give up, to stop loving each being. And, some say that she isnt a lady. This is Lovejoys character, Ellie. With her wolves filling her life, a startling reality begins to cloud her memories. She is a magic being, who forgot. Not always making wise choices, there is a stumbling quality, as she searches for truth. The cast of characters should be in a genealogical chart. No time for that as Ellie tumbles into new adventures. Always adventures, as she learns her sensuous, loving, and giving being.
