

Woodstock: The Oral History

All the dreams, optimism, follies and eccentricities of the 1920s counter-culture were exemplified at the legendary music festival which became a byword for a generation. This book marks the 20th anniversary of the event which included performances by Jimi Hendrix, The Who, Crosby, Stills and Nash, Joan Baez, Joe Cocker, Stevie Wonder and Bob Dylan. The insiders, organizers and participants in this event recall what really happened, backstage panics, unexpected triumphs and moving reflections of a lost age.
